The Backpacker Diaries Chapter 1

These are my Backpacker Diaries from 1999-2000

My work does affect many. So I know that people do need to get to know me a little better. And so I'll give a bit more information.

These are some old web diaries from a backpacking trip I did back in 1999-2000. I put this website up on my return in summer of 2000. It's a glimpse of me from an different time.
