Being One of the Girls

Chapter 1

Why would any guy want to be one of the girls?

He would have to really like women

Being woman to women is unusual I'll admit. Something outside of what people are used to. A bit quirky. Not quite what one might expect.

It is certainly true that the dynamic between a woman and such a man would be a bit, well, different.

Galaxy Quest - Something Different

*You see I could be taken by Aoife as she spreads my legs
and shags me senseless as her woman*

Or I could be down supping pints with the lads.

I'll catch up with the lads later.

But right now I wonder if I suggest to Aoife that we dress in mermaids together will she slip her arms around my waist and do that thing with her fingers along my bra strap that drives me crazy?

I'll see if she is busy...

"Aoife, I want to try on that new black dress that you picked out for me last week. Could you help zip me up?"

"I'd love to, Gráinne. Here, let me help you with your bra."

Why would any guy want to be one of the girls?

He would have to really like women, that's for sure.
