## Chapter 1

### *Dalmellington made it personal*

Two years of my life it took me to save that 13,000 euro. Dalmellington thought they could just take it and walk off like nothing had happened.

I am deep in debt because of being locked down. I haven't worked for years and I can't even draw the dole. I have to borrow money for food and to get past the end of this month. While that guy holds 13,000 euro that he stole from me.

*To the guy in Dalmellington, you made it personal*

And you have done absolutely nothing to pay back the money you stole or to make right the problem.

That will be taken into account when I make an example of you. An example of corruption in business in this country and of those who think they can get away with it. I will make an example of you when I come in as Taoiseach.
