## Chapter 1

*It was said that John Connor had his mother's eyes*

My body is male. Nothing about my physical body is female. Apart from one thing. I have always known that I have woman's eyes.

If there was only one part of my physical body that I would want to be female, it is my eyes. Because the eyes are the windows of the soul.

I really want to have a body now that would look better in an evening dress than in a shirt and trousers. I may be far from that right now. But in my eyes I'm already there. In my eyes I have always been there. I have always had the eyes of a girl.

### *The Sorcerer's Apprentice*

In terms of Sorcery I teach. In terms of woman I will be apprentice. To women.

In terms of woman I am really looking forward to learning the magik.
