On Being Really a Jedi

Chapter 1

You see I had psychic abilities. 100% reproducible psychic abilities. And the group that found out about me in 2008 wanted those abilities delivered to them.

They were upset by the fact that I wasn't delivering the psychic abilities. Although they did think that they would get their hands on my knowledge eventually. There might be delays, but they thought that in time they would get their hands on my research.

These abilities must not fall into the hands of those who would abuse the power.

Many times I have wished that these abilities had not come to me. But with power comes responsibility and I knew what I had to do.

I knew I would have to go deep to find the strength to make my stand. It was the beginning of a period of deep isolation. Of going within.
