The Sacred Jedi Texts

Chapter 1

*The Tao is the Force.
Achieving the Tao is what unlocks Jedi ability.*

I am the first in history to achieve the Tao. To achieve it as a permanent state.

I am the first Jedi in history. Real Jedi.

For these past few years I have poured my knowledge into a number of books. More than ten thousand pages, written from morning to night over the past three years. It is a knowledge that I achieved through Ascension. Those books contained the highest understanding of any books ever written in the history of humanity.

Earlier this day, Friday 7th September 2018, I destroyed those books. Saving only some notes. But almost everything – destroyed.
